

Crucial Conversations FOR ACCOUNTABILITY

MANAGING PERFORMANCE IS MORE THAN A PROCESS—IT'S ABOUT PEOPLE

Sure, there are fancy software and tools to make performance management seamless and easy. But any manager who's struggled to close a significant performance gap or anyone who has ever walked out of an annual review feeling like they've just been processed rather than prioritised knows there's nothing easy about it. Deflated and disenchanted people don't improve, and neither do results.

In reality, performance management is about addressing your people's behaviour routinely and consistently. It's about candidly coaching through challenges and holding people accountable for lapses in behaviour. It's about identifying goals, fast-tracking careers, and in the process, improving your bottom line. These are communication skills—the difficult kind that may not come naturally, but when learned, mean the difference between managing people and managing process.

The good news is these accountability skills are replicable and learn-able. We're all just a few crucial skills away from learning how to manage people and performance daily and directly.

Crucial Conversations for Accountability combines the convenience of virtual learning with the benefits of live instruction. Our virtual instructor-led programme ensures an engaging and spaced learning experience that meets the unique needs and demands of the modern learner.
